## CASE OVERVIEW

Evidence pieces analyzed: 1295

Evidence types: document, image

Overall legal significance: CRITICAL

Cross-evidence correlations: 644

## EXECUTIVE SUMMARY

The workplace dispute at Major UK Retailer's store in Store Location X involves serious allegations of neglected hygiene, food safety violations, and potential employment law breaches. The claimant, Employee A, a key employee, has accused the management of retaliating against his whistleblowing activities concerning unsanitary conditions that allegedly persist despite internal reports and communications. The core issues encompass potential unfair dismissal claims, discrimination under the Equality Act 2010, and breaches of duty of care, all suggesting misalignment with employment and health regulations.

Management has failed to effectively address claims of hygiene lapses, resulting in multiple legal risks. The presence of rust, grime, and mold on store shelving and food storage areas could contravene health and safety standards, risking consumer well-being and regulatory compliance. The organizational response to employee grievances, such as inadequate cleaning measures and alleged retaliatory suspension of Employee A, reflects serious HR procedural shortcomings, exacerbating tensions and dissatisfaction among store personnel. This dispute highlights systemic failings within the management hierarchy and a culture of overlooking critical compliance warnings.

## EVIDENCE ANALYSIS

1. IMG\_4304.JPEG (IMAGE)

SHA256: ba1916ae2a955311...

Size: 633,031 bytes

Confidence: 0.95

### Key findings:

- Scene: Close-up image of a section of a store shelf made of white metal or plastic. The shelf has visible dirt and grime marks. On the left and right edges of the image, there are partial views of packaging boxes: the left box is mostly white with a barcode and orange label, and the right box is yellow with a blue logo partially visible that ends with 'Tu'. A small piece of a printed label with text 'Tu' and 'Pa' is visible on the lower right of the shelf edge.
- Text detected: Tu

- 
- Objects: shelf, packaging boxes

## 2. IMG\_4365.JPEG (IMAGE)

SHA256: 6b1e2c787eb0c152...

Size: 456,841 bytes

Confidence: 0.80

### Key findings:

- Scene: Close-up view of a white perforated metal shelf or panel, likely part of a store shelf. The background shows the perforations clearly, while the foreground shows blurred packaged food items, one with an orange plastic top and another with visible printed packaging featuring food images and text. The focus is on the perforated white metal surface rather than the products.
- Objects: packaged food item, store shelf panel

## 3. IMG\_2710.JPEG (IMAGE)

SHA256: e04b6ed91c99ff74...

Size: 836,373 bytes

Confidence: 0.95

### Key findings:

- Scene: The image shows the inside of a refrigerated storage with multiple packages of raw chicken products. There are clear plastic trays containing diced chicken breasts with orange and yellow labels, as well as a whole chicken package with a predominantly orange label. Some chicken packages are stacked. The labels have visible text including product type, origin flags, and expiry dates.

### Key findings:

- Scene: The image shows close-up shelves in a grocery or retail store displaying packaged meat products. The meat is contained in clear plastic trays with labels featuring a UK flag symbol and nutrition or dietary information icons. The shelf has a price tag label holder that displays a price partially visible as '£1.80'. The shelf and packaging appear clean and organized. There are no people visible in the image.

**Key findings:**

- Scene: Inside a refrigerated display shelf containing packaged meat products. The image is taken from a low angle looking along the shelf. The visible packaged item is labeled 'British 2 Pork Loin Steaks'. Above the meat packs, there is a white shelf rail with a partially visible label saying 'EXTRA LEAN'. The shelf structure shows some signs of dirt and wear.

**Key findings:**

- Scene: The image shows a close-up view inside a refrigerated shelf or display case, likely in a grocery or food retail setting. Visible are multiple packages of food including a portion of salmon fillet in a white container on the left side. The shelf bars are black with some dirt, food remnants, or stains inside the shelf. On the right, there is a white label with black text attached to the shelf edge indicating price and product information. The shelf is metallic with some visible screws. Part of a hand or wrist covered by a red and dark fabric is seen in the bottom left foreground.

**Key findings:**

- Scene: The image shows a supermarket shelf stocked with multiple boxes of Cadbury Caramilk Mousse and Cadbury Dairy Milk products. The shelf has a clear plastic front panel that is heavily stained with a brownish substance, appearing smeared in multiple places. The boxes of Cadbury Caramilk Mousse are purple and yellow, clearly visible on the left side and middle. The right side shows boxes of Cadbury Dairy Milk with some red packaging behind the plastic barrier. There is a price tag on the left side of the shelf indicating the price and some details about the Cadbury Mousse.

**Key findings:**

- Scene: The image shows a floor area with a terrazzo flooring pattern in yellowish, white, and brown tones. There is a glass panel with a white metal or plastic frame lying horizontally near the bottom left of the image. Near the glass panel, there is a black curved plastic object or container placed on the floor. Two people are partially visible from the waist down; one person is wearing blue jeans and black shoes with white soles, and the other has part of a blue pant leg visible. In the bottom right corner, packs of yellow Willow wood smoking or spreading product are partially visible inside a container or holder. The white frame near the glass panel has dirt and some damage visible along its top edge. The scene appears to be indoors, possibly a store or public area.

**Key findings:**

- Scene: The image shows a close-up view of an indoor setting, possibly a section of a kitchen or a store counter. The main focus is on a white plastic or metal grated vent or basket with vertical slots, which appears stained or dirty in some areas. Above the vent, there is a flat white surface with visible dirt marks and stains. Below the vent, a metal surface is visible, likely stainless steel, with a reflection of the vent. The bottom right corner of the image shows part of a colorful object with a yellow and red decorative pattern, possibly packaging or a box. The floor is visible in the lower part of the image, consisting of beige and yellow speckled tiles. Part of a person's black clothing is visible in the bottom center of the image, indicating someone's presence.
- Objects: vent or basket with vertical slots, metal surface, box or packaging with yellow and red pattern, floor tiles, person's clothing

**Key findings:**

- Scene: The image shows a screen displaying a document with text and a table. The document appears to be guidelines or instructions related to legal requirements for paperwork when transporting food waste for non-human consumption. The visible portion includes a bullet point and a three-row table with two columns labeled 'Reason' and 'Use'. The table describes reasons such as 'Out of Code', 'Damaged', and 'Poor Quality' with explanations for each related to food product conditions and eligibility for sale or donation. The top right corner indicates page 4 of 7.
- Text detected: It is a legal requirement for the paperwork to be completed correctly when transporting food waste for non-human consumption.

Reason | Use

Out of Code | Passed expiry date and can no longer be sold or is not eligible for donation

Damaged | Un-saleable due to the product having been damaged or is not eligible for donation

Poor Quality | Quality of product is not good enough to sell (i.e. A vac-pack of bacon where the seal has broken, and the bacon has been exposed to the air).

**Key findings:**

- Scene: The image is a screenshot of a document named 'Health and Safety - PPE Hand & Arm.docx' viewed on a mobile browser, specifically from the website jMajor UK Retailer.sharepoint.com. The document page is numbered 5 out of 11. The title in red text reads 'Deep Sink - Cleaning Glove / Washing up – UG24'. Below the title, there is a small image of hands wearing yellow gloves cleaning a surface. The text content provides information on the importance of using yellow latex gloves when cleaning with chemicals, emphasizing the risks and proper use of the gloves.
  - Text detected: jMajor UK Retailer.sharepoint.com
- Health and Safety - PPE Hand & Arm.docx

Deep Sink - Cleaning Glove / Washing up – UG24

**Why:**

• In our situation as food retailers, it is very important to keep our premises and equipment clean. To do so requires the use of variety of chemicals, and whilst these are selected for posing a small a risk as possible to colleagues and others, there is nevertheless some risk of skin damage when using these chemicals.

**What glove:**

• Deep Sink – a yellow latex glove.

**What for:**

- This glove should be used when undertaking end of day cleaning tasks
- This glove will not give protection from heat, nor will it give protection from broken or sharp edges, so care should be exercised in their use.
- Objects: yellow latex gloves, hands

**Key findings:**

- This document is an email from Employee A to Deborah Stamps regarding a gross misconduct investigation into alleged unreasonable and inappropriate behaviour. Paul requests detailed evidence and documentation before an investigation meeting scheduled for September 3, 2025. The email includes requests for itemized lists, handset logs, cleaning records, witness statements, CCTV footage, and clarification on procedures and prior safety concerns. Paul also raises concern about the timing of his suspension shortly after requesting access to cleaning records. The content is important for legal proceedings concerning workplace disciplinary action and potential procedural fairness issues.

- Scene: The image shows a section of a refrigerated display case or shelf likely used for food items. The shelving has black metal bars and a white base that appears dirty with visible scattered food debris, including small bits that look like shrimp shells or similar seafood remnants. There is a transparent plastic divider or label holder attached to the front of a lower shelf. Above this section, part of two round bread items or similar products are visible.
- Objects: plastic shelf divider, black metal bars, food debris (small shrimp or seafood shells), two round bread items

**Key findings:**

- Scene: The image shows a close-up view of a white or off-white metallic or plastic surface that has a series of evenly spaced circular holes in a row. Above this row of holes, there is visible dirt, grime, and what appears to be mold or mildew buildup on the flat horizontal surface. The surface shows signs of wear and contamination, particularly in the upper section, where there is a concentrated patch of darker grime. The lighting is even, highlighting the textured and dirty surfaces.

**Key findings:**

- Scene: The image shows a supermarket or store shelf stocked with various fruit juice products. On the upper shelf, there are multiple bottles of Innocent brand apple juice with labels indicating 'pure fruit juice APPLE' and the phrase 'we never add sugar'. On the shelf edge below, there is a price label indicating the product as 'Innocent Apple Juice 900ml' costing £3.20. The label also shows '35.6p per 100 ml each' and has a barcode and date code '04/06/2025 PM'. Another price tag to the right shows a 'Nectar Price' of £2 with a smaller '22.3p per 100 ml'. The shelf itself shows some visible dirt, stains, or grime along the front edge where the price labels are attached. Below the shelf, there are cartons of various fruit juices, mostly green and white in color, with screw caps visible. No people are present in the image. There is no visible timestamp on the photo itself, but the date code on the price tag indicates a date in 2025 for the label or product. The image is clear enough to read product labels and prices but has some focus and lighting variations. The dirt on the shelf may be relevant for hygiene or store maintenance observations.

## **Our policy on:**

Fair Treatment

Document Owners: Head of HR Policy & Retail Union Relationships

Last Updated: June 2023

Version: 3.9

Document Status: This policy is non-contractual and may be updated or changed by the company at any time

This policy applies to...

UK Colleagues on or Aligned to Major UK Retailer Terms and Conditions

In a nutshell

The company promotes a culture of fair treatment and we will not tolerate bullying, harassment, sexual harassment, victimisation, discrimination or any other treatment towards individuals or groups which is less favourable or has a negative impact on the way they feel at work. We have a set procedure to make sure that any complaints are dealt with in an appropriate way but also to enable us to put steps in place to prevent incidents reoccurring.

**Key findings:**

- Scene: Close-up view of a supermarket or store shelf section displaying a plastic container filled with small pink shrimp. Some shrimps are spilled on the black shelf edges and white divider below the container. There is a black vertical metal rod and various packaging visible around. The environment includes other products, likely refrigerated as suggested by the visible condensation and arrangement.

**Key findings:**

- Scene: The image shows a close-up perspective of a refrigerated display shelf in a store, likely a supermarket. The shelf contains several small yogurt containers with various labels, including "Müller" and "Greek Style." There is a protective divider between adjacent products on the shelf. The floor is a patterned tile. In the background, two yellow caution signs are visible, likely indicating a wet floor. The overall environment appears clean and organized.

- Text detected: Müller, Greek Style, 10%, Pudding

**Key findings:**

- Scene: The image shows a partial screenshot of a mobile device screen displaying a document from a SharePoint site (jMajor UK Retailer.sharepoint.com). The document appears to be related to health and safety responsibilities, formatted in a table with bullets and bold headings. The visible content focuses on safety procedures regarding equipment usage, repair, and control of contractors, customers, and visitors. The screen also shows the mobile web browser interface with indicators for time (13:55), network, WiFi, and battery levels at the top. The document is displayed within a Word Mobile app interface, evident from the blue Word icon and editing options.

**Key findings:**

- Scene: The image shows a supermarket shelf stocked with containers of Yeo Valley Greek yogurt products. There are several blue and white yogurt tubs visible, with some partially stacked. A small patch of dirt or debris is visible on the shelf edge. The price label on the shelf reads 'Yeo Greek Recipe 5% Strain Nat Yog 450g £3.25'. The yogurt tubs have visible text describing the product, including phrases about its thickness, creaminess, and traditional Greek style.

- Text detected: Yeo Valley

GOOD THINGS COME TO THOSE WHO WAIT

In this pot is the thickest, creamiest yogurt we've ever made - just like traditional Greek but all our own.

Our secret? We've kernal\* it, very slowly, up to nine times.

It makes for a super luxurious spoonful that's naturally boosted in protein and even lower in natural sugars.

\*Kernald, you say? It's old Somerset for "thickened". But then we have a funny word for everything.

Cheap petrol.

Didn't like the fact that the new Store Location X superstore, the bakery is right at the other end from the entrance.

Satisfied is a good enough rating, it's a chain supermarket so I'm not going to get excited about it. I do love Major UK Retailer's products though & the quality is good.

#### **Key findings:**

- Scene: The image shows a close-up of a supermarket shelf with price tags and some packaged food items. The top portion of the image captures part of a package with text and colorful graphics, likely a food product. The middle and bottom parts show clear plastic or glass and a black shelf surface with visible dust and debris. On the shelf edge, there is a price label for Major UK Retailer Soy, Ginger & Garlic Sauce 175g priced at £1.20, with additional pricing information and a barcode. Below this label, another label indicates a promotional price of 2 for £3, but the product for that label is not fully visible. There are various packaged food items under the shelf, appearing to be vegetables or prepared ingredients in plastic wraps.

**Key findings:**

- Scene: A screenshot of a social media post on a platform showing a post by a user named Ingrid Boon, posted on August 21 in a group or page related to 'Wellbeing at Major UK Retailer'. The post contains a centered block of white text on a black background, expressing thoughts about conflict, peace, and personal integrity. The interface shows interaction buttons for like, comment, and share, and mentions that 7 people (including Sandra Barlow) liked it. There is also a text input field for writing a comment.
- Text detected: I thought avoiding conflict meant keeping the peace, but it turns out it only made me a prisoner to my own silence.

I swallowed my feelings to keep others comfortable, stayed silent when I should have spoken up.

I let things slide that should have been confronted because I didn't want to rock the boat.

The truth is avoiding conflict doesn't create peace, it creates resentment, it creates anxiety.

It creates a version of you that's so afraid of disappointing others, that you end up disappointing yourself.

I refuse to live like that anymore, my peace is not found in being agreeable. My peace is found in honesty and choosing to honor my own voice as much as I honour everybody else's.

If I have to betray myself to keep the peace, It was neve peace to begin with.

**Key findings:**

- Scene: The image shows a computer screen displaying a PDF document opened in a viewer. The document appears to be policy documentation, specifically a 'Fair Treatment Policy' from Major UK Retailer, as noted in the footer. The page number is 6 of 14. The document page is divided into sections with headings and text blocks discussing methods to resolve minor workplace issues, including 'Resolving minor issues yourself', 'Talk to a manager', 'Conciliation meeting', 'Mediation', 'Outcome', and 'Formal approach'. The text includes explanations of each approach. The desktop taskbar and application launcher on the left side show common Linux interface icons, including Firefox, terminal, and others. The top bar shows the date and time as June 19, 12:56. A screenshot notification is visible at the top center, indicating that a screenshot was just captured. The zoom level of the document viewer is at 43.7%.

- Text detected: Sometimes small issues at work can more effectively be resolved without the need for other people to become involved. We encourage colleagues to take steps to resolve an issue themselves, where it is appropriate and they feel confident to do so. For example, if you experience an issue with another colleague then consider whether it is something that could be resolved by speaking directly with the colleague themselves. A private face to face discussion in a polite and positive way may be all that is needed to address the issue. If you are unsure about how to approach this type of discussion then you should speak to your manager who will be able to provide support on steps to make sure the conversation is effective. Of course not all issues can be resolved following the approach above, so if this is not appropriate or not successful for the type of concern you have then you should talk to your manager. Before meeting with the manager to whom you have raised the complaint, think about how you would like the issue to be resolved and what steps you think could be taken to make this happen. The manager will look into the issue that you have raised. They will do what they can to sort the problem out quickly and explain to you the steps that are being taken. If your complaint is about another colleague, it can be helpful to have an informal conciliation meeting with them. This means that you and the colleague have the opportunity to discuss the situation with a manager present. The manager will act as an independent third party and encourage you both to explain your side of the situation in order to come to a resolution. Sometimes, if the complaint is about someone's behaviour, the person may not even realise the effect they've been having. Talking it through in an open and honest way can help them to recognise the problem. Together, you can agree ways of working to prevent future issues occurring. This type of meeting will only take place if you both agree to it as it requires a positive and proactive approach in order to be successful. The aim of the informal route is to resolve your complaint quickly and constructively. The manager dealing with the complaint will meet with you to discuss what they believe can be done to resolve the problem and check that you are comfortable with this approach before putting any agreed actions into place. Sometimes a conciliation meeting or the mediation process may be suggested by the manager (see above). In most cases, we hope that the agreed approach should resolve the issue. However, if things don't improve then you should let the manager know. There may be other informal options available, or they may decide to start the formal process. Another approach to resolve an issue which your Line Manager can discuss with you is Mediation. Mediation is a voluntary and confidential structured process in which a neutral third party (the mediator) intervenes in an impartial way to help two or more people in a dispute attempt to reach an agreement. Any agreement comes from those in dispute and not from the mediator. The mediator will do this by encouraging and facilitating an open and honest conversation between the parties, so that both sides have a greater understanding and empathy of the other person's position. The mediator will not take sides and will not judge whether anyone was right or wrong in the past, rather focuses on reaching an agreement about the future working relationship. This is different from conciliation, as it is a more in depth and detailed process, using a formal methodology which requires a trained mediator. It would usually be used for more complex issues and may be appropriate at any stage in the process, both informal and formal. We have a formal approach for dealing with complaints in situations where the informal approach does not successfully resolve it. In exceptional cases, it may be appropriate to go straight to the formal stage. This would be the case where the manager reviews your allegation and feels it to be a case of discrimination, harassment, sexual harassment, victimisation or other types of complaints very serious in nature or where the informal approach would not be appropriate.

**Key findings:**

- Scene: Image shows a close-up view of a refrigerated store shelf with a pack of beef escalopes labeled by Major UK Retailer. The shelf surface appears worn and dirty, with visible stains, debris, and a small hole. The beef escalopes are packaged in clear plastic with a red label detailing nutritional information and a use-by date. Metal wires support the shelf, and some packaging material is partially visible at the bottom left corner.

**Key findings:**

- Scene: The image shows an empty shelf section in a refrigerated display, likely in a grocery store or supermarket, with packaging for shrimp or prawns visible in the adjacent sections. The empty section has plastic shelf dividers and a few stray shrimp scattered on the shelf and some fallen on the front ledge. Packaged shrimp products are visible on the shelves above and below the empty section. The shelf appears to be metal with a white front and black supports. The plastic shelf dividers are transparent but have accumulated some moisture or residue. Some cartons or packages below the shelf also contain shrimp and are wrapped in plastic. No people are visible in the image.

**Key findings:**

- Scene: Screenshot of a mobile web browser displaying a document titled 'Health and Safety - COSHH.docx' hosted on a company SharePoint site (jMajor UK Retailer.sharepoint.com). The visible text

---

in the document includes safety instructions related to the use and storage of approved substances in stores, mentioning procedures for approved substances supply, storage, customer-facing cleaner cupboards, first aid for substance exposure, and spillage control.

- Text detected: Health and Safety - COSHH.docx

Stores should only order and use approved substances from central stores suppliers via SSP, and avoid substituting approved substances with unauthorised 'shop floor' items.

If approved substances have supply and availability issues, stores will be advised by Group Safety of what suitable alternatives can be used.

All substances should be stored in their original packaging and safely out of reach of customers.

In addition, any customer facing cleaners' storage cupboards must always be kept locked when unattended.

First Aid procedures for substance exposure can be found on COSHH Risk Assessments.

Spillages involving substances must be dealt with in accordance with current spillage control guidelines in Safe Working Practices/Stores Procedures/COSHH Risk Assessments.

**Key findings:**

- Scene: The image shows the corner floor area of what appears to be a stocked storage or retail shelf. There are boxes with printed labels stacked on a terrazzo floor with yellow and white chips. One box label is partly visible with text and a barcode, and a blue box is partially visible above the floor. On the floor near the shelf is an object wrapped in clear plastic which contains a small, lifeless animal or object resembling animal body parts. The shelf edges and floor area near the animal have some dark stains or smears. No people are visible. The lighting is sufficient to read text but the overall scene is cluttered and the floor area appears dirty.

**Key findings:**

- Scene: This image shows a close-up view of a refrigerator shelf containing several containers of soup and another unidentified food item. The focus is on two yellow containers of 'BOL immunity power soup' with the flavor 'butternut squash & chilli.' The containers are positioned on a shelf inside a refrigerator. Below them, two white containers with dark labels and lids are partially visible. There is a white divider rod on the right side of the refrigerator shelf, which has some greenish spill residue near it and on the shelf surface. The spill appears to be from a food item, likely the soup or something similar.

- Scene: The image shows a supermarket refrigerated shelf unit with various packaged ready meals. The shelves are metal with a white coating and have price tags attached to the front edge. The right side of the shelf has a vertical transparent glass or plastic divider panel. The shelves contain various prepackaged food items in plastic and cardboard containers, such as sweet and sour chicken bowls, some items with vegetables or rice. Some of the shelf areas are empty with some dirt or residue marks visible on the bottom surface. Price tags display UK currency (pounds sterling) with prices from £2.75 to £4.80 clearly visible. There is a blue plastic label holder on the right marking some product as 'New'. The floor at the bottom left corner is a speckled tile surface.

**Key findings:**

- Scene: The image shows a computer screen displaying a PDF document page viewed in a PDF reader application on a Linux desktop environment. The visible page (page 5 of 14) contains text related to a Fair Treatment Policy. The content includes sections titled 'Collective and individual grievances', 'What if my complaint is about my line manager?', and 'Resolving issues at work informally'. Some text is highlighted in red and bold for headings and emphasis. The bottom of the document page shows a footer with '5 Fair Treatment Policy' on the left and a logo with the text 'together Major UK Retailer' on the right. There is a taskbar on the left with various application icons visible. A notification popup appears near the top center, stating 'Screenshot captured - You can paste the image from the clipboard.' The overall screen has a timestamp displayed at the top center 'Jun 19 12:56'. The zoom level for the document is 43.7%.

- Text detected: Fair Treatment

For us to handle any complaint appropriately when raising a complaint, you will need to let us know how you feel you

have been treated unfairly and also how you feel the issue may be resolved.

If you disagree with a practice, policy or decision, this would not be subject to this policy. You may be asked to use the

appeal process where this is available, or you may be asked to provide more detail about how you feel you have been

treated unfairly for the complaint to be progressed further as a fair treatment complaint.

Wherever possible you should try and raise complaints by discussing them with your Line Manager locally, informally

and as soon as possible.

Collective and individual grievances

If you are a Food Retail colleague and a member of a Union and wish to raise an individual or collective grievance please

refer to your National Agreement.

There may be different approaches available dependant on which Union you are a member of and the relevant National

agreement that is applied regarding individual and collective grievances. Please refer to your National agreement for

more details. A fair treatment complaint may be applied where there is an issue regarding the application of a policy

and a collective/individual grievance may be regarding the actual policy itself (depending on the relevant union

agreement applied).

For other areas that are collectively bargained please refer to your National agreement or Local agreement for the

collective grievance processes.

What if my complaint is about my line manager?

If you feel you can't raise your complaint with your line manager, you should raise it with their line manager or another

member of the management team. You may also email your complaint to ER.Support@Major UK Retailer.co.uk

---

## Resolving issues at work informally

We expect all our colleagues to be part of making the company a great place to work. As part of this, it is everyone's

responsibility to create an open and honest environment where issues can be dealt with as soon as they arise. Often

the best way to do so is informally and therefore in most cases we will try to resolve your complaint informally first.

The guidance below provides steps that can be taken to do so.

5 Fair Treatment Policy together Major UK Retailer

**Key findings:**

- Scene: The image shows a close-up view of a white surface with a torn sticker on its edge, stained with brownish marks. On the upper part of the surface, there is an object that appears to be a red or maroon wrinkled plastic or bag. Below the stained surface, there is a shelf with packaged meat visible; the label on the packaging includes text 'PORK STA' and a partial flag emblem. The lower part of the image shows a blue-colored front panel of what may be a refrigerator or freezer drawer.

**Key findings:**

- Scene: The image shows a PDF document displayed on a computer screen running a Linux operating system with a Firefox web browser window open. The PDF file being viewed is titled 'faiertreatment.pdf', displayed as page 10 of 14. The document contains text regarding raising issues about unacceptable behaviour, location of meetings, and disclosure of records related to workplace conduct. The document has a header with 'Firefox' and 'about:blank' visible. The bottom footer mentions 'Fair Treatment Policy' and the Major UK Retailer logo with a heart symbol. Visible page navigation and document thumbnails appear on the left sidebar, and system UI elements including time ('Jun 19 12:56') are visible at the top. The document text includes email addresses in bold and sections highlighted with color backgrounds.
- Text detected: Raising an issue about unacceptable behaviour

Please refer to our guide to discrimination, bullying, harassment, sexual harassment and victimisation for full detail on what may be considered unacceptable behaviour which can include discrimination, bullying,

---

harassment, sexual harassment and victimisation. If you think you may be in one of these situations, you can raise the issue, using the principles and steps outlined in this policy specifically:

- discuss with your line or another appropriate manager, verbally or in writing – whichever feels more comfortable
- email to ER.Support@Major UK Retailer.co.uk

Raising complaints related to sexual harassment can feel particularly distressing or daunting. Sexual harassment, of any kind is not acceptable and we want any colleague who feels they may have been the recipient of, or witnessed sexual harassment, at any level, to be able to speak up and raise this as an issue.

If you feel unable to raise it yourself, you could confide in a trusted colleague, friend or family member to support you, or raise it on your behalf.

However you choose to do it, the most important thing is that if you are in this situation, you feel that you can tell us, so that it can be dealt with appropriately and as quickly as possible. Major UK Retailer's will take any complaints seriously, they will be dealt with sensitively and always using our formal process, using the steps outlined in this policy.

Your line manager, or the manager hearing the complaint will also be able to discuss any additional support you may need during and after the process.

If you have tried to raise the issue, but you feel that it has not been taken seriously please do one of the following:

- escalate to a more senior manager
- email ER.Support@Major UK Retailer.co.uk
- report it in confidence using RightLine which is an independent and audited service for Major UK Retailer's. The free phone number (0800 085 2099) and website are available for all colleagues, contractors and suppliers who work for Major UK Retailer's in any capacity.

#### Location of meetings

Where appropriate any meetings throughout the process may be attended digitally or via telephone rather than face-to-face. This may be more common for roles where remote working is normal working practice. For roles where this is not the case, digital / telephone attendance may be an alternative where face-to-face is not possible, reasonable or to prevent unnecessary delays due to availability of attendees, or where mutually agreed.

#### Disclosure of records

Colleagues can request a copy of notes or documents containing personal information about them. Notes taken from meetings may be provided to a colleague as evidence of any allegations made in the event of disciplinary proceedings. However, any personal information relating to other colleagues may not be disclosed.

**Key findings:**

- Scene: The image shows a supermarket shelf with packaged food products labeled 'Inspired to Cook by Major UK Retailer.' These packages appear to be ready-to-eat or ready-to-cook meals, with one package partially visible showing a stir fry meal. Below the shelf is a price label indicating products with a 'Nectar Price.' The pricing label mentions 'Stir Fry Meal Deal for £3' along with an individual product price of £1.20. The shelf and packaging are slightly reflective and the image has some blur, especially on the price label. There are no people visible in the image.

**Key findings:**

- Scene: The image shows a close-up view of a shelf with a worn and stained white surface. On the shelf is a brown plastic cup labeled 'CAFFÉ LATTE' with additional smaller text partially visible below it. Behind the cup, there is a green packaging with the word 'STARBUCKS' partially visible. Below the shelf, there is a metal rail and a refrigerated section displaying small bottles and cartons, some with blue and red caps. The floor is visible at the bottom left of the image and appears to be concrete or a similar material. The angle of the photo is tilted, and the photo includes a variety of drink products on and below the shelf.

5. Picking Great Quality Products

More and more people are using Major UK Retailer to order their grocery shopping online, so it's more important than ever that we get it right and pick good quality products with good dates for our customers.

---

What is a good quality product?

- Products are not mouldy, bruised, dented, leaking, open or smashed.
- Products have a long date

Always think to yourself when picking, "Would I be happy with the quality of this item myself?". If the answer is no, then seek a better quality product or a substitution is there is no good quality

Health and Safety - Retail Risk Assessment

---

... safety/protective footwear has been issued to those colleagues working in Bakery and Cafe as floors here have proved to be more difficult to keep free of debris e.g. oil, flour etc, despite housekeeping attention.

#### Store Health and Safety Risk Assessments

Store health and safety risk assessments have been completed centrally. Store managers are expected to implement the risk control measures and communicate them to colleagues. The risk assessments identify hazards and assess risk for all tasks/activities in the store.

It is recognised that not all risks can be sufficiently assessed using a generic assessment system, and therefore some local differences may exist. Where local circumstances affect the risk ratings in the store, Store Managers are expected to record local conditions on the risk assessment. A generic risk rating must not be lowered.

#### Work Equipment Assessments

The Company's equipment procurement process requires that all equipment brought into the company is subject to risk assessment. Recommendations and control measures from the assessments are incorporated into safe working practices and

#### Key findings:

- Scene: Close-up view of a stovetop burner area. Visible are black metal grates and a metallic silver component beneath them, likely part of the burner mechanism. The white surface underneath the burner and grates is stained with dark marks and some brown discoloration or residue, possibly burnt or spilled substances. The scene is somewhat cluttered with grime and residue around the burner.

#### Key findings:

- Scene: Close-up image of the interior part of a white refrigerator or freezer door. The image shows a damaged white plastic hinge or latch mechanism with visible dirt or mold spots. Surrounding surfaces, including the metal or plastic shelf frame, also exhibit dirt or grime. In the background, some packaged food items are visible including a container with nutritional labeling showing colored boxes and text, though the text is not fully legible.

**Key findings:**

- Scene: The image shows a display shelf in a refrigerated section of a store. The shelf contains multiple packaged raw shrimps or prawns, identifiable by their pinkish color and packaging style. The top portion shows a plastic packaging container filled with shrimp. Beneath it, there are several yellow and white packaged items. On the left side, there are other meat or seafood products in green and white packaging. The shelf has a white divider with some partially readable yellow and black text on it.

**Key findings:**

- Scene: This image shows a close-up view of a supermarket shelf edge label holder that is dirty and rusty. A white price label is partially visible on the holder, displaying a price of £1.65. There is a vertical label with 'R15 5' and a barcode above the price label. To the left, a part of a brown packet is seen with the text 'ZINGER' and 'Organic TURMERIC SHOT' on it. The background shows a green box and a beige-speckled floor surface. Behind the main shelf holder, another shelf label holder is visible but out of focus.

**Key findings:**

- This supporting statement by Samantha Employee A advocates for her husband, Employee A, facing disciplinary proceedings. It asserts that Paul raised legitimate health and safety concerns protected under the Public Interest Disclosure Act 1998, accusing the employer of retaliation and whistleblower victimisation. It highlights an external manager's validation of Paul's claims and criticises disciplinary actions taken post-investigation, suggesting discrimination linked to Paul's neurodivergence (Dyslexia, ADHD, likely Autism) under the Equality Act 2010. The statement calls for recognition of reasonable adjustments, consistency in treatment, and protection against disability discrimination and unlawful victimisation due to whistleblowing.

**Key findings:**

- Scene: The image shows a laminated or plastic-covered printed planner sheet titled 'Code Check Planner W/C: 10/8/25' with various columns and rows organizing food items and daily checks from Sunday to Saturday. The sheet is handwritten with initials or codes in many cells under days of the week related to visual checks for store food sections such as fresh-short life, in-store bakery, hot food, desserts, cold pies, kitchen deli, quiches, chicken, cold meat, pet food, milk, and several other categories. The planner includes stock check instructions and a note about daily visual checks on different food categories. The bottom of the sheet has signatures or initials for End of Day - Late Night Manager Only sections for different days. There are some handwritten notes and doodles in pen. The planner is slightly wrinkled and has a transparent tape or plastic strip across the middle. There is also a page number 'P 6 W 4' noted in the top right corner. The bottom right corner reveals the printed date 'Updated 29th April 2025.'

Confidence: 0.95

**Key findings:**

- Scene: The image shows the interior of a refrigerated shelf or drawer with metal bars and a surface that appears to have dirt, debris, or possibly food particles scattered on it. In the top left corner, there is a partially visible packaged product, likely raw chicken, with a nutrition label and use-by date visible. The packaged chicken is covered in plastic wrap. The background shows additional packaged items, possibly slices of deli meat or similar products, neatly arranged.

**Key findings:**

- Scene: Close-up view of the interior of a white plastic or metal shelf rack with vertical slats. At the bottom of the slats, there is a visible accumulation of a creamy, brown-spotted substance that appears to be melted or decomposed, with some spreading over the surface below. Behind the slats, a partially visible purple wrapper with text including the fragment 'Dairy Milk' is seen.

**Key findings:**

- Scene: Close-up view inside a red or maroon plastic crate with ventilation slits on the sides. The crate appears to be empty except for a small dried leaf or piece of debris inside. There are light patches and markings on the bottom surface of the crate, possibly chalk or faded writing.
- Text detected: Several chalky markings resembling letters and symbols are visible on the crate's base, but they are faint, incomplete, and not clearly readable. Some parts might resemble letters such as A, X, L, Y, but no coherent words are distinguishable.
- Objects: plastic crate, dried leaf or debris

**Key findings:**

- Scene: Close-up view of packaged food items inside a refrigerated display or storage unit. The shelves are metal grates, and there is a transparent plastic flap or cover visible on the upper middle part of the image. The focus is on a single package containing sliced ham pieces with a visible label. There are other similar food packages placed above and to the sides. The background shows the white inner wall of the refrigerator or cooler with some spots or stains.

**Key findings:**

- Scene: The image shows several vacuum-sealed packages of raw lamb meat, specifically half legs of lamb. The packages have yellow-green labels with product information and cooking instructions. The meat is placed on a white surface with some dirt or stains visible in the background. The labels indicate the product is from Major UK Retailer, a UK supermarket chain, and show weight, price, and cooking times.

**Key findings:**

- Scene: The image shows a close-up view inside a refrigerated display shelf or case, likely in a grocery or meat store. On the shelf are packaged cuts of raw meat wrapped in plastic with visible labels. There is a gloved hand holding or adjusting a device (possibly a scanner or handheld computer) over one of the meat packages. The shelf surface underneath the meat packages shows red liquid stains, which appear to be blood or meat juices spilled or leaking from the packages. The labels on the meat packaging include text about product origin, use-by date, and other identification details.

**Key findings:**

- Scene: Close-up view inside a refrigerated display case or shelf. Visible are packaged food items, including what appears to be raw chicken in vacuum-sealed plastic packaging and another yellow-colored food product in clear plastic. The metal shelving has black rods and a white tray or base underneath. There is a yellowish spill or stain on the white surface underneath the packaging, near a circular hole or opening in the metal. The general condition appears somewhat untidy with visible stains and some rust or corrosion around the hole.

**Key findings:**

- Scene: The image shows a close-up view inside a refrigerator or freezer shelf with visible plastic food packaging on the left and the top right corners. The shelf is white and has a slatted or grated front edge. There is some dirt or residue on the shelf, including a piece of torn or ripped paper or cardboard near the center. The packaging on the left is orange with a partially obscured barcode and some blue, white, red, and yellow colors on the top left corner of the packaging. The item on the top right is mostly orange with a white label. The surface of the shelf has some small spots and debris scattered around.
- Text detected: A partially visible barcode on the orange packaging is present but not fully legible. No other clear textual information is visible.

**Key findings:**

- The document is a series of emails between Employee A, an Online Assistant at Major UK Retailer Store Location X Store, and Nick Ringrose, Operational Field Safety Manager at Major UK Retailer Group Safety & Insurance, concerning serious health and safety and food safety issues identified by Paul at the Store Location X store. Paul has raised concerns over a prolonged period, supported by extensive photographic evidence, and has escalated these to senior management and ER (Employee Relations). Nick acknowledges receipt, advises Paul to file a fair treatment complaint regarding his treatment, and plans an unannounced store inspection. The correspondence discusses potential breaches of health and safety laws, proper protocols when contamination incidents occur, and concerns about retaliation or unfair treatment. The email exchange reveals ongoing organizational responses and concerns for compliance with legal obligations such as RIDDOR reporting and the Public Interest Disclosure Act 1998 protections. The document is key legal evidence of whistleblowing, internal investigation, and management's handling of significant safety risks.

**Key findings:**

- Scene: The image shows a close-up view of a store refrigerator shelf containing containers of Greek Style Natural Yogurt by Major UK Retailer. The yogurt packaging is predominantly blue and includes nutritional information and icons indicating it is a source of calcium and protein. The refrigerator shelf edge, visible in the foreground, appears to have mold or dirt on it.

**Key findings:**

- Scene: Retail refrigerator shelf displaying packaged meat products. Two packs of sausages with visible labels are placed side by side in a plastic holder. The left pack shows a green label indicating 'GLUTEN FREE' and information about nutritional content, including salt, sugars, and saturates. The right pack shows an 'RSPCA ASSURED' logo and a nutritional label as well. Below the sausages, there are other packaged meats, including 'MEDIUM WHOLE CHICKEN' with visible labels. On the metal shelf surface below the sausages, there is a visible pale brown stain or spill. Both sausage packs have use-by dates: left pack is labeled '15 MAR L1215:08' and the chicken has '14 MAR' printed on it. There are no people visible in the image. No timestamp or metadata overlays are present in the image.

Health and Safety - Training.docx

**Store Manager Responsibilities:**

Ensure there is a sufficient number of AOs in store for the SWE used

Ensure AOs are able to access the Observation To Do List in myLearning and are given sufficient time to complete training observation tasks

AOs only complete observation tasks on equipment they are Authorised Users for

The following Authorised Observer procedure must be adhered to:

The Store Manager must check that the AO has completed the relevant equipment training in myLearning

Observe the AOs whilst operating the relevant work equipment and if they are doing this correctly, mark the AO as 'Complete' in myLearning

All AO's must complete the 'Being a Great Observer' and pass the 'Being a Great Observer eTYK' prior to completing any observations

The relevant SWE training video and PDF are used during observation tasks to ensure consistency and accuracy of training

The store's AO records are accurate on myLearning and show all AO's have confirmed their training with a digital signature on their Training Record

**Key findings:**

- Scene: The image shows multiple netted bags of oranges placed on black plastic trays or shelves in a retail setting. The oranges are displayed in a produce section with a price label below them. The label reads 'Taste The Difference Easy Peeler 600g' priced at £2 each, with an indicated price of £3.33 per kg. The background includes a purple signage with the branding 'taste THE DIFFERENCE'. There are smudges or stains on the price label, and part of the lower display bin is visible but mostly empty except for a few oranges.

**Key findings:**

- Scene: The image is split into two views of what appears to be the interior of a refrigerated display case or shelf unit. The left side shows close-up blood-like stains or residue in a refrigerated compartment, with some packaged meat visible in the background. A text overlay on the left image says "Same patterns appearing again." The right side depicts a similar refrigerated shelf with more packaged meat labeled with a '12 JUN' date. There is visible debris and rust-like staining on the metal and plastic shelf elements. A clear plastic divider or barrier with a partially torn label, marked "10%", is also present on the right side shelf. Both scenes suggest the environment is a refrigerated meat or food display unit with visible signs of contamination or residue.

for complex assessments as appropriate.

It is the responsibility of Line Managers to ensure that individual colleagues work in accordance with the requirements of this policy, and that:

2 / 3

§ Adequate control measures (as indicated on the COSHH Risk Assessment) are in place to safeguard colleague health.

§ Colleagues have access to relevant information about the substances they may come into contact with or are using, including relevant first aid information in the event of an incident/accident occurring.

---

§ Relevant Safety training is undertaken where indicated prior to the colleague starting work with substances that may be hazardous to their health, and at appropriate intervals thereafter. (please note: additional information or training may be required for vulnerable groups e.g. young persons, new and expectant mothers, inexperienced workers or anyone susceptible to certain illnesses like dermatitis, asthma etc.)

§ Appropriate PPE is supplied, and remains available at all times. Appropriate training in the use, storage, cleaning and maintenance of PPE is carried out and recorded.

Seen by 556

I am nexting

I can't start all over. However, I can start from where I am. And where am I?

I am in the next breath I take. I am the next heartbeat I feel under my softening ribs. I am in the next word I utter. I am in the next thing I give my attention to. I am in the next. I am the next choice I make. The next kindness. The next hug. The next silence. The next tear. The next prayer I utter. The next word I write. The next step. The next song. I am not starting over--I am continuing. I am nexting.

Re: Escalation: Ongoing Food Safety Breach - Store Location X Store Confidential

Good Afternoon Paul,

Thank you for highlighting your concerns. I take this matter seriously and will reach out to Ryan Allen to arrange a visit to the store as soon as possible.

In the meantime, please let me know if there is anything else I need to be aware of.

Kind regards,

Paul

Subject: Escalation: Ongoing Food Safety Breach - Store Location X Store

Dear Paul and David,

I am writing to escalate an unresolved health and food safety issue at the Store Location X store, which has persisted for over four months despite formal internal reporting and discussions with local management.

Attached is the original report I submitted in February 2025 outlining serious hygiene concerns in the chilled section, including recurring contamination, blood residue, and visible mould growth. Although assurances were given that a cleaning schedule would be implemented, conditions remain largely unchanged. I've included updated photo evidence from April and June 2025 showing continued debris, mould, and inadequate cleaning practices.

As an online assistant responsible for handling both chilled and ambient foods in succession, I'm concerned this poses an ongoing risk to customers, particularly those relying on online deliveries who cannot inspect items in person. Given the length and visibility of this issue, it now reflects a failure in both hygiene standards and basic operational management.

Due to system limits, I've uploaded the report and supporting files via the links below. Please let me know if there are access issues or if alternate formats are preferred - I can resend or compress files if needed.

Please note: I've not copied in store-level management at this stage but am happy to do so if needed for clarity or coordination. I'm raising this in good faith as someone who cares about standards, but as a part-time, GOL colleague, I'm not in a position to lead or support the operational follow-up. I trust this will be addressed through the appropriate management channels.

Thank you for your time. I look forward to a formal response.

Kind regards,

Employee A

Online Assistant - Store Location X Store

**Key findings:**

- Scene: The image shows a close-up view of a refrigerated display shelf in what appears to be a supermarket or food store. The shelf has metal bars and contains packaged food items. There is visible dirt and debris on the shelf, with some pieces of food or other residues lodged between the bars. The packaging visible includes a blue wrapper on the right with partially legible text and an orange and dark blue package on the upper left with a nutritional label and expiry date. The expiry date on the package is 17 MAR. The surface of the shelf shows signs of wear and some grime.
- Text detected: Best before 17 MAR

- Scene: The image is a screenshot of a social media post on LinkedIn by Ingrid Boon, posted August 20, under the 'Wellbeing at Major UK Retailer' category. The post contains a block of text conveying an emotional message about struggling and surviving despite difficulties. The text contrasts a common phrase 'you handled it so well' with the reality of pain and effort behind the scenes. The interface shows options to Like, Comment, and Share the post, and a reaction with 6 others including 'Rickesh Pydiah'.
- Text detected: "you handled it so well."

no, i didn't. i was barely holding on. i cried when no one could hear me, lost the parts of me i used to love, and pretended i was okay when i wasn't. i smiled, because it was easier than explaining the pain. i went through days that felt too long, nights that felt too empty, and moments when i wondered if i'd ever feel whole again. i hid behind routines, laughter, and words that never reached the truth of how i felt. i learned to survive quietly, to push myself out of bed when my heart didn't want to, to keep moving even when it hurt to breathe. i was tired, but somehow i kept going. i showed up, even when i didn't want to, even when every part of me whispered to give up. i survived, even when it felt impossible. so no, i didn't handle it well.

Health and Safety - PPE Hand & Arm.docx

What if I think that I need hand / arm protection for a area / task not mentioned in this procedure?

In order to determine whether providing hand or arm PPE is the answer, it will be necessary to complete a risk assessment.

Once the assessment has been completed, and it has recommended that protection does need to be provided, a copy of the assessment should be sent to Group Safety, who will determine what standards it needs to comply with, and then forward that information on to the Procurement Division so that they can purchase the correct item.

This ensures that the requirement is examined across the Retail Division as a whole, to see if there are any further locations where similar specialist hand / arm protection applies.

What if I think that there may be quality issues with the hand / arm protection supplied?

Please make contact with the Dimensions Corporatewear Helpline on 01332 856930 or Major UK Retailer@dimensions.co.uk. They will need full details including order code, type of item, quantity involved, whether worn and if

- Scene: Close-up image of a dirty, rust-stained surface with black metal rods, part of a white appliance or appliance vent with blue stains, and a clear plastic container or rack. There is a mix of grime, dirt, and rust corrosion on the metal surface, along with some scattered debris. The white surface underneath has some yellowish stains. The appliance part has slots and a small blue area that looks like residue or paint. The clear plastic rack is positioned vertically in the lower central part of the image.

## Clearance Bargains!

### Health and Safety Procedure

Shaun Spuce - Safety Business Partner Ref: Oct 2018

#### Audits

##### **Purpose:**

On-site audits and visit reports are a formal means of checking if the current health and safety arrangements are effective in safeguarding those affected by Clearance Bargains activities and to ensure the continued effort in reducing the risk associated with such activities. This is achieved through the systematic appraisal of on-site policies, procedures, supporting documentation and the creation, and completion, of proactive actions for continued improvement.

##### **Scope:**

On-site audits and visit reports will include all areas of the site and are completed under the Risk App system headings of: Environment, Machinery/Equipment, Work Systems/Colleagues, Provisions for Health and Safety and Legal Compliance and, will include all relevant documentation e.g. risk assessments, procedures, training materials, communication systems and statutory inspections. The on-site audits are completed by the Site Management team and visit reports completed by Regional Managers. A summary of the on-site audit and visit report corrective actions should be discussed at the site's quarterly H&S; meetings with any outstanding actions recorded in the minutes.

#### Audit responsibilities and Frequency

- All Site Managers

The objective is; to ensure that the processes and systems in place are being complied with locally through the weekly completion of questions within the Risk App in a comprehensive, fact based, and accurate manner to achieve effective monitoring and to ensure actions arising from on-site audits are discussed and remedied in a timely manner.

Site Manager receives and actions the following:

- Completed Risk App reports
- Regional Health & Safety Visit reports
- Ad-hoc visit reports
- Other statutory inspections e.g. LOLER inspections.
- Objects: document text

**Key findings:**

- Scene: The image shows a computer screen displaying a PDF document viewer on a Linux-based desktop environment. The PDF document is a policy or guidance page titled 'Your representative' and 'Appeal' with detailed text instructions related to representatives and appeals, likely in the context of an organizational or workplace setting. The document is page 8 of 14 as indicated on the viewer sidebar and footer. The desktop shows common icons on the left panel, including Firefox browser and terminal. The top bar shows the date and time as 'Jun 19 12:56'. A notification titled 'Screenshot Just now' is visible near the top center of the screen indicating a recent screenshot captured.
- Text detected: Your representative

You can take a representative to the meeting to support you. Your representative can be a colleague (who works at any of the companies within the Major UK Retailer business) of any level or a trade union representative. If you're under 18 or have a disability you can bring a parent, guardian or support worker. If you have a hearing impairment and require an interpreter - such as a sign language interpreter, lipspeaker, speech to text reporter, sign language translator or interpreter for Deafblind people - then you can bring the interpreter and this would be in addition to the representative. However, they must be NRCPD (The National Registers of Communication Professionals working with Deaf and Deafblind People) registered. The NRCPD check interpreters against the national minimum safe practice standards to make sure they are properly qualified and competent to do the job needed. Your line manager can book an NRCPD registered interpreter through the website [www.nrcpd.org.uk](http://www.nrcpd.org.uk) and the cost of this will be paid for either by the government's Access to Work scheme or by us.

Your representative can help you prepare for the meeting and we'll give them a reasonable amount of paid time away from work (if they are a colleague). It's your responsibility to make sure your representative has all the relevant information and documentation in advance of your meeting.

---

During the meeting they'll support you. They can speak on your behalf and present your case but where you're asked a direct question you should answer this yourself. They're allowed to see the statements and documents involved in the process and can ask for the meeting to be adjourned if they think it's necessary.

For more information refer to the Role of a Representative guide on Our Major UK Retailer.

## Appeal

If you're not happy with the outcome of the complaint, you can appeal in writing within seven days of receiving the conclusion. You should email your appeal to [ER.Support@Major UK Retailer.co.uk](mailto:ER.Support@Major UK Retailer.co.uk). You should state that you want to appeal and explain why you're unhappy with the conclusion. It's really important that you state your reasons for appeal to allow the manager to fully prepare for the meeting. If your appeal letter does not provide your grounds or reasons for appeal, the appeal manager may ask you to provide more information within 7 days, if this is not provided, in exceptional circumstances your case may be closed, for Food Logistics non C-graded colleagues, please see your local agreement. An appeal meeting will be heard by someone with at least the same seniority as the manager who held the fair treatment meeting who has not previously been involved in the case. It will lead to one of the following next steps:

If no new information is raised in your appeal:

The manager will carry out a review of the existing information before considering your appeal

The conclusion of your appeal will then be communicated in writing. There may be occasions where the manager may need to meet with you to discuss the outcome.

If new information is raised in your appeal letter:

You'll be invited to a meeting in the same way as the initial complaints meeting. You'll have the opportunity to explain why you are appealing and provide your evidence.

The conclusion of your appeal will then be communicated to you at the end of the meeting if possible. If new evidence is produced which needs to be further investigated, the appeal manager will do so within seven days, or they'll tell you why it's taking longer and let you know when you'll have a conclusion. The outcome will then be communicated in writing. There may be occasions where the manager may need to meet with you to discuss the outcome.

New comments

Found everything I needed.

Asked about voucher issue.

The flooding in the carpark is a cause for concern! It's been a problem for a long time & no one is doing anything about it! Why? Because it costs money? Come on Major UK Retailer you make enough profit to deal with this more efficiently! Also it's sad to hear that the cafe is closing. This has been a thriving social area where people can meet to enjoy some refreshments together without it costing a fortune. It's sad that

---

no one in management ever listens to the customers. We have no say in any matter.

I've tried very hard over the years to get Major UK Retailer to stock products I enjoy & recommend to my friends but I've been told it's not possible due to some companies paying Major UK Retailer more to stock their products. Groceries should be a fair market. Thankfully I can get this product at Tesco so Major UK Retailer is losing out which is a pity as I love my Major UK Retailer store!

Clean store good choice good quality really good to use scanner.

I could easily find what I needed & the queues for checking out weren't long.

**Key findings:**

- This document is a formal outcome letter following a Fair Treatment meeting held on 30 June 2025 concerning an employee's raised concerns about cleaning standards and management response at a Major UK Retailer store. The investigations concluded that the line managers did not respond or escalate the employee's issues in a timely manner, and the employee was treated differently during coaching conversations. The letter partially upholds these points and outlines the company's commitment to addressing concerns fairly, supporting colleagues, and following safety protocols. The employee is informed of their right to appeal and offered wellbeing support. The letter serves as a formal record of the investigation and its findings with implications for workplace fairness and compliance with company policy.

- Scene: The image shows a close-up view of what appears to be the inside part of a refrigerator or freezer shelf. There is visible black, green, and white mold growth on the white metal shelf surface. The upper edge of the image shows part of a product packaging with partial text visible: 'Toffee' and an image of a dessert with ice cream. The shelf has some dirt or debris as well, and the environment looks unclean.
- Text detected: Toffee
- Objects: white metal shelf, mold growth, product packaging, dessert with ice cream

**Key findings:**

- Scene: The image shows a supermarket shelf stocked with multiple containers of Major UK Retailer Tomato & Basil soup. The soup containers are placed on a horizontal white shelf with a metal support bar. There is visible dirt and stains on the shelf surface and the support bar, indicating possible spillage or lack of cleaning. A price sticker, partially torn and hanging, is attached to the front lip of the shelf. The price label displays the price of £1.49 with some nutritional information and barcodes visible on the soup container. Below the shelf, other soup containers and jars with different colored lids are visible, but their details are mostly obscured.

**Key findings:**

- This is an email chain documenting an ongoing internal investigation and fair treatment complaint raised by employee Employee A against management at Major UK Retailer Store Location X store, involving allegations of health & safety failures, unfair treatment, retaliation, and policy breaches over a period exceeding 12 months. Rob Eaton, Store Manager, is conducting the investigation, holding meetings, and corresponding about evidence, outcomes, and appeal rights. The exchanges confirm procedural aspects such as meeting schedules, outcome letters, appeal deadlines, and the offer for conciliation meetings. The complaint involves potential systemic issues with working conditions, documented evidence, and responses from management. The tone is professional but reflects serious employment and workplace safety concerns with possible legal implications regarding employee treatment and regulatory compliance.

- Scene: The image shows a printed chart titled 'Meat Cleaning Plan' divided into two vertical columns of rectangular boxes containing handwritten meat cleaning tasks and corresponding dates written in black marker beside and inside the boxes. The left column lists various meat items like sausages, beef joints, mince, meatballs, burgers, steaks, lamb, pork mince, and pork joints with dates ranging mainly from 21/6 to 7/7 handwritten next to them. The right column lists items including just cook, slow cooked, breaded chicken, duck, turkey, chicken whole, fish varieties, fish sticks, prawns, and mackerel, also with dates ranging from 23/6 to 4/7. Both columns have the label 'Meat Plinth' at the top and bottom. The chart has some faint handwritten notes crossing some boxes and some ink marks. The background is a flat surface likely mounted on a wall or clipboard, with a small part of a blue edge visible on the left side. No people are visible. No explicit timestamps or metadata are visible other than the handwritten date notations. The image quality is clear with easily readable text and handwriting, slight paper texture and minor ink smudges present.

- Scene: The image shows a refrigerated grocery display case with multiple sections divided by metal and plastic racks. In the center foreground, there is a packaged food item labeled as 'Boneless Smoked Haddock 2 Fillets' in a clear plastic tray with a blue label. The packaging also displays nutritional information and other product details. Towards the left of the image, other packaged food products are visible, but their details are mostly obscured by the angle and packaging. The refrigerated display has a white vent with black slats running along the right side of the image. The shelf inside the case appears somewhat dirty or stained, particularly near the vent area, with visible debris and discoloration. The background and surrounding floor surface are part of the store environment, with a speckled tile floor. No people or timestamps are visible in the image.

**Key findings:**

- Scene: The image shows a close-up view of a supermarket shelf displaying various soap and hand wash products. The shelf has white and blue price tags with visible prices in British Pounds. Notably, there is a liquid hand wash bottle labeled 'Milk & Honey Nourishing Hand Wash with Vitamin E' and a price tag for 'Pears Transparent Bar Soap 125g'. The soap price is £1.60 each, and £1.28 per 100g. The shelf hardware shows signs of rust and grime, suggesting some neglect or wear. The floor below the shelf is made of terrazzo or similar speckled design.

**Key findings:**

- This email thread documents a workplace communication between Employee A and Amy Martin at Major UK Retailer regarding food safety concerns, cleaning schedules, and conflicts between food safety requirements and productivity metrics (IPH). Paul raises concerns that systemic issues in cleaning and training are not adequately addressed, and that current solutions improperly shift responsibility to individual employees. Amy responds clarifying procedures and provides documentation schedules. The exchange includes potential implications for compliance with legal food safety standards and internal workplace policies.

New comments

The store was clean & tidy & I got the items I went for.

Got everything I required.

Keep it up. Clean well laid out store, the staff are friendly & they recognise me, I have a Major UK Retailer credit card & nectar that I use with my shopping.

Self service till needed attention.

I prefer to use a local for my top up shopping, I find the carpark troublesome to park & negotiate when a pedestrian so don't visit often. I did find what I wanted in the end but did take some time. Due to long queues at the couple of manned tills I was forced to use self scan which required a team member to help. Products I purchased were of good quality.

Got everything I needed.

**Key findings:**

- This email exchange concerns an ongoing and unresolved food safety breach at the Store Location X Major UK Retailer's store. Employee A, an online assistant, escalates serious hygiene issues persisting for over four months despite previous internal reports and assurances. The issues include contamination,

---

blood residue, mould growth, and inadequate cleaning, posing risks to customers. Paul Gant, Regional Stores Director, acknowledges the concerns and commits to arranging a store visit with Ryan Allen. The matter involves documented evidence, internal reporting failures, and potential health risks, indicating significant compliance and operational management deficiencies relevant to food safety regulations.

**Key findings:**

- Scene: The image shows a close-up view of a supermarket shelf with price tags for milk products. The shelf surface has noticeable rust and dirt stains, especially near the back edge. Two price labels are visible: the left one (partially cut off) shows a price of £1.35 per litre for a 1L Whole Milk product, and the right one is for Major UK Retailer British Semi Skimmed Milk 2 Pint 1.136L priced at £1.20 each (£1.06 per litre), including a date '22/02/2024 DEC' and a barcode. Above the shelf, the bottom parts of two milk cartons display nutritional information with icons and values for energy, fat, saturates, sugars, and salt per serving (200ml). Both cartons have a circular British flag icon labeled 'MILK'. Below the shelf, some transparent containers or shelves with some bottles are partially visible but out of focus.

**Key findings:**

- 
- The document is a detailed employee complaint outlining systemic health and safety violations, management neglect, and alleged retaliation within a Major UK Retailer store in Store Location X. The employee describes repeated efforts to raise concerns over prolonged periods, providing evidence of food hygiene and workplace safety issues ignored by multiple management levels. Despite escalation attempts through internal channels including Employee Relations and Food Safety teams, no effective corrective action was taken. The document alleges gaslighting, punitive coaching sessions disguised as non-disciplinary meetings, and a deteriorating store environment risking customer and employee wellbeing. The complainant highlights potential breaches of UK health and safety law and company policy, framing the situation as critical with possible tragic outcomes if unresolved.

**Key findings:**

- Scene: The image shows packaged salmon fillet products on a refrigerated shelf. One salmon fillet is prominently visible inside a white tray sealed with clear plastic. The packaging has a dark blue label with text indicating 'SALMON FILLET by Major UK Retailer' and other details. There is a price tag or label holder in front of the product, which is empty. The shelf surface beneath the packages appears slightly dirty with visible spots and crumbs. There is also some yellowish residue on the left wall beside the shelf.

**Key findings:**

- Employee A submitted a formal complaint of unfair treatment following the mishandling of health and safety concerns he raised at the Store Location X store. Despite raising serious food safety issues in good faith, his concerns were initially dismissed by local management, causing personal stress and a failure of the employer's duty of care. Paul seeks a formal review, acknowledgment of impact, clarity on future handling of such issues, and a discussion of photographic evidence related to hygiene risks. The complaint references possible protected disclosure implications and requests remedial action from Employment Relations support and executives.

### **Key findings:**

- Scene: The image shows a digital screenshot of a document page titled 'Referral to formal process' and related sections discussing fair treatment complaints and processes. The page is part of a multi-page document viewed within a PDF reader interface on a computer desktop with visible sidebars and icons. The document text explains steps to resolve complaints, how to raise them, and details of a fair treatment process summary in a formal, professional layout with orange highlights and a small logo at the bottom right labeled 'Major UK Retailer'.
- Text detected: Referral to formal process

If, after informal attempts have been made to resolve a complaint, a resolution has not been reached then a manager may refer the complaint to a formal process.

If the manager has reviewed the case and believes that there is evidence to suggest matters still need to be resolved, the case will be referred to a fair treatment hearing.

Sometimes, a manager may decide that trying to resolve the complaint informally isn't be appropriate. If this is the case your manager will always discuss this with you first before starting the formal process.

### Fair Treatment process summary

Some Food Logistics Depots that are covered by a collective agreement have additional steps in their process. Please see appendix 1 for additional details of the process required for these locations

### Step 1 Understanding your complaint and possible resolution

In order to assess the nature of the complaint, the manager dealing with it will need to understand your complaint in more detail. This may involve meeting with you to discuss it or asking you to write it down, or provide more details.

It is really important when completing this step to be specific about facts related to the complaint, for example, times and dates of incidents or witnesses. This will enable the issues you raise to be investigated properly. You should also be clear about how you feel you have been treated unfairly and how the matter can be resolved.

### Step 2 Attend a formal complaint meeting

You will be invited to attend a meeting to discuss your complaint as soon as possible. This will be held by an appropriate manager and you can have a work colleague or a trade union representative come along with you to this meeting. Where appropriate it may be the same manager in the informal and formal stage. Prior to the meeting, the manager will investigate the issues that you have raised. They may also decide to adjourn after meeting with you, if they need to gather any further information based on what you have discussed.

### Step 3 Adjournment

When the manager has all of the information to make a decision they will ask you and/or your representative if you/they have anything to add, and then will adjourn the meeting.

---

It is this time the manager will use to make their decision.

#### Step 4 Outcome

In some cases, the manager hearing the complaint will give you their conclusion at the end of this meeting. If they need more time to think it over, or gather more evidence, they will do all they can to give you their written conclusion within seven days of the meeting. The outcome letter will detail the manager's decision (if the complaint is upheld or not upheld), what action the manager intends to take to resolve the fair treatment complaint and the appeals process. In exceptional circumstances there may be occasions where the manager may need to meet with you to discuss the outcome. If the manager does not find sufficient evidence to support the complaint, they will advise you of the reasons why. We aim to process each individual stage of the complaints resolution procedure within 14 days.

Do I have to put my Fair Treatment complaint in writing?

You can raise Fair Treatment complaints either verbally or in writing to the appropriate manager, whichever feels more comfortable. However it is raised, the most important thing is understanding the complaint in order to assess the most appropriate approach to resolve it. If a complaint is raised in writing it doesn't mean it will automatically be dealt with formally, this will be based on the nature of the complaint. Likewise, if you choose to raise your complaint verbally it can still be escalated formally, which may involve putting some things in writing to help support any investigation.

**Key findings:**

- Scene: The image shows a close-up view of an empty retail shelf with metal dividers. The shelf surface appears stained and dirty, and the back wall is made of perforated white metal or plastic with round holes in a grid pattern. On the right side of the image, there is a black plastic sign holder with partially visible text, showing only the letter 'H' and some other indistinct marks. The shelf is empty of any products and appears neglected in cleanliness.

**Key findings:**

- Scene: The image shows a refrigerated display case or freezer shelf containing packaged meat products. The packages on the left and at the bottom contain poultry (chicken), identifiable by the blue and orange packaging with visible text referencing '8' and 'CHICKEN'. The packages on the top right side are large pork crackling joints with skin on, wrapped in clear plastic with blue labels. The shelf surface is white and contains visible dirt, debris, and a dark round hole. There is also a patch of what appears to be a stain or residue on the shelf surface near the packaged pork. The right edge includes a metal grill component, likely part of the refrigeration system. A small price tag on the far right edge partially shows a price listed as '£4.25'. No people are present in the image. There are no visible timestamps or digital metadata marks within the image.

Health and Safety - Retail Risk Assessm...

Pregnant Women and Nursing Mothers

Assessments are conducted for pregnant women or nursing mothers and documented individually. The assessments are conducted by line managers and are kept on site in an employee's file.

Walkthrough Risk Assessments

'Walkthrough' risk assessments are standalone risk assessments, valid only for the duration of an ad hoc event. Store managers undertake these types of risk assessments when the potential risks arising from an

---

activity are outside the normal activities for the store.

#### Store Delivery Risk Assessments

The Transport Risk Assessor will undertake the assessment at a time when a delivery / collection is being made (the assessor must not be the delivering / collecting driver). The transport risk assessor and the store manager will agree the necessary control measures required to reduce the risk of manoeuvring delivery vehicles at the store. The store manager will sign the assessment form to confirm that they agree with the assessment.

**Key findings:**

- Scene: The image depicts a clean white perforated metal surface with small holes in a grid pattern, likely part of a shelving unit or storage system. The metal surface has a small torn and dirty label or adhesive patch in the middle. On the left side, a transparent plastic container with a few thin objects inside is partially visible. The interior surfaces show spots of dirt and minor scratches.

**Key findings:**

- Scene: The image shows a close-up view of a white metal or plastic surface with vertical slotted vents or grilles. The top portion has a solid white panel with some dirt, smudges, and small black marks, including a prominent black circular mark near the upper right corner. The vent slots are evenly spaced and show signs of wear, dirt, and dust accumulation. There is some orange debris partially visible at the bottom left corner between the vent slots. The background behind the vent appears dark and slightly reflective.

**Key findings:**

- Scene: The image shows a close-up view of a handheld electronic device (a Zebra brand scanner or terminal) displaying a work-related interface titled 'Next pick run.' The interface includes details such as items to pick, time assigned, estimated finish time, trolley type, and various performance metrics related to picking operations. The device appears to be in use in a work environment, likely a warehouse or store, as suggested by the visible metal bars and some colorful blurred background elements. The screen is lit up clearly, displaying white text on a dark background with an orange 'Continue' button at the bottom.

**Key findings:**

- This email exchange between Employee A and Amy Martin discusses Paul's request for short leave due to unresolved workplace issues affecting his mental health. Paul notifies Amy of his absence and intention to take time off to safeguard wellbeing and has arranged a GP appointment. Amy responds by outlining the protocols for absence, seeking clarification if the leave is sick-related or otherwise, and attaching relevant company policies. The correspondence evidences workplace mental health considerations and procedural guidance on employee absence.

**Key findings:**

- Scene: The image shows a refrigerated supermarket display shelf containing various prepackaged food products. Visible items include multiple containers of Shepherd's Pie and Cottage Pie by Major UK Retailer, potatoes, mashed potato, and branded products such as Albert Bartlett Classic Fries, Parmentier Potatoes, and Rooster Fries. Price tags and product information are displayed clearly above the respective items. The setting appears to be a grocery store or supermarket chilled food section.

**Key findings:**

- Scene: The image shows a close-up view of raw meat packaging placed inside a refrigerated display or storage unit. The meat is packaged in clear plastic trays with red labels. There is a visible spill of a red liquid, likely blood from the meat, on the white surface beneath the trays. A gloved hand is holding a device, such as a small tablet or scanner, partially visible at the top right of the image. The setting appears to be a refrigerated shelf or drawer typically used for storing meat products in a commercial or retail environment.

**Key findings:**

- This letter from employees Paul and Samantha Employee A to the management team raises urgent and ongoing health and safety concerns related to poor hygiene in Aisle 1 (Meat Section), citing contamination risks and insufficient corrective actions over 11 months. It details repeated notifications, management's inadequate responses, and the risks to public health and company reputation. The letter formally requests immediate cleaning, preventive measures, staff training, audit reviews, and transparent communication, warning of potential escalation to external authorities if unaddressed.

The Starbucks siren logo and the word 'STARBUCKS' in white uppercase letters are clearly visible on the carrier. The carrier is placed on a white surface that has multiple brownish stains and marks, some of which resemble dried coffee spills and cup rings. Part of the text on the cups is visible, including some recycling info and product details.

**Key findings:**

- Scene: The image shows a retail supermarket shelf with packaged meat products. The shelf has blue labels with white text and a British flag icon. The visible text on the label partially reads 'Our by Major UK Retailer.' Several plastic packages of meat are placed on the shelf, some with blue labels and nutritional information. The shelf and surrounding area have some dark stains or spots. The shelf support and dividers are white plastic or metal. The photo is taken at an angle, slightly downward, focusing on the shelf label and the packaged meat below.

**Key findings:**

- Scene: The image shows a retail display shelf containing black plastic crates filled with netted bags of oranges labeled as "Taste The Difference Easy Peeler 600g." The shelf has a price label indicating the oranges cost 2 pounds per bag, equating to 3.33 pounds per kilogram. There are some brown stains or drips on the price label and signage below the crate. The background includes parts of a store interior with visible orange and purple colors.

**Key findings:**

- Scene: The image shows a close-up of a shelf or rack area in a refrigerated section, likely for meat products. On the left side, there are packaged meat cuts with red labels visible, partially covered by clear plastic splints used to hold the packages. The shelf surface is white with visible wear and tear, including scratches, stains, and some peeling paint or residue spots. There is a circular hole on the shelf surface about midway in the image. On the right side, there is a ventilation or cooling grate, which appears to be part of the refrigeration unit. The overall scene suggests a refrigerated meat retail display area, with signs of use and aging on the shelf surface.

**Key findings:**

- Scene: The image shows a screenshot of a digital announcement posted in the EnAble at Major UK Retailer online space. The announcement is authored by Sandra Holland and includes text about a coaching series focused on feedback. There is a graphic included that illustrates signs of rejection sensitive dysphoria in individuals with ADHD. The graphic features a cartoon woman holding her head with visible stress marks, surrounded by various symptoms or behaviors listed around her. The text in the announcement is clearly legible, and the layout is typical of an internal company or organizational communication platform.

Coaching Series #2

This series will be bite-sized ideas and information designed to help you feel your best, inside and outside of work.

This week we're looking at Feedback: what it means, how you can benefit, and regulate your feelings about it. Check out the tips below, and let us know what you think.

Receiving Feedback

As we are just out of the window for Links conversations you have probably received feedback recently.

Feedback is essential, and one of the ways we learn and move forward... see more

SIGNS OF REJECTION SENSITIVE DYSPHORIA IN ADHD

perfectionism and overachieving behaviors

---

intense emotional reactions to perceived rejection

rumination on past rejections

Intense shame and guilt over minor criticisms

avoiding situations with potential rejection

quitting after perceived rejection or criticism

defensive responses to feedback

catastrophizing minor setbacks

**Key findings:**

- Scene: The image shows a white paper sheet pinned to a blue surface with four brass-colored thumbtacks at each corner. The paper is a cleaning schedule titled 'Meat Cleaning Plan' with a handwritten header 'Period 5'. The plan is divided into two columns listing different meat items and related cleaning dates written in black marker or pen. Handwritten dates and notes are marked beside various meat types for cleaning tracking. Below the columns, additional handwritten notes and dates are present, including a note that says '\*WHEN CLEANED PLEASE DATE'.

**Key findings:**

- The document is a personal statement describing workplace experiences related to management changes and concerns raised about treatment after raising serious issues. It references a positive Local Authority Food Safety audit but expresses feelings of victimization and being ignored over an extended period. The author also discloses neurodivergent conditions. The statement contains potential indications of workplace grievances but no direct threats or admissions of inappropriate conduct.

**Key findings:**

- Scene: The image shows a refrigerated supermarket shelf section containing multiple packaged meat products and some plastic containers with lids. The top shelf has numerous packs of British 5% fat beef mince stacked horizontally with blue and red labels. On the lower shelf, there are six white plastic tubs with yellow contents arranged in two rows, and a pack of sliced bacon on the right side. The shelving unit is metal with a pink label strip along the middle. The white base and the back panel of the lower shelf appear stained and dirty, with visible brown marks and scorch-like spots. There is also a partial image of a supermarket advertisement or product display on the left side beneath the shelf. The overall scene is an inside view of a refrigerated grocery section.

**Key findings:**

- Scene: The image shows a close-up view of a refrigerated shelf with a pack of sliced processed meat (likely ham or similar deli meat) on it. The slices are stacked evenly and packaged in clear plastic. The shelf surface beneath the package appears dirty with various stains and food residues. Another package is partially visible to the right, also contained under a transparent barrier or case. The shelf has metal and plastic groove strips to support products.

**Key findings:**

- Scene: The image shows a close-up view inside a refrigerator or display cooler, focusing on a shelf that holds various juice bottles and a pack of Tropicana Smooth Orange juice (4x250 ml). The shelf and the refrigerator interior show visible dirt and grime, mostly dark brown or black in color, indicating possible lack of cleaning. Several plastic juice bottles with white caps are visible, and there is a partially visible orange juice bottle to the right. The shelf has a plastic divider where some dirt is also visible. The packaging of Tropicana Smooth Orange is blue and white with an image of an orange and a striped straw. The shelf above and below the bottles is white and the refrigerator structure is metal or plastic coated white. There is also a barcode visible on the right side of the image on another product.

**Key findings:**

- Scene: Close-up image of a refrigerated shelf inside a fridge or freezer. The photo focuses on the upper section of the shelf where there is a build-up of yellowish grime or mold along the edge. The shelf appears to be white plastic with some dirt and debris on it. Below the shelf, there are packages of processed meat or deli products, wrapped in transparent plastic with labels, stacked on multiple levels. The image is slightly out of focus, especially in the lower half where the meat packages are. The environment looks somewhat neglected in cleanliness terms.

**Key findings:**

- Scene: Close-up view of a partially enclosed space with black metal or plastic rods forming a grid. The surface inside is white with visible dirt, small debris, and a brown stain. There is a torn piece of paper or label with partially visible text. The immediate foreground shows a black base with more small debris and a crumpled white tissue or paper piece. A transparent plastic edge is visible on the right side of the image.

**Key findings:**

- Scene: The image shows multiple packs of Nestle Ski mousse desserts arranged on a white retail shelf. The mousse is strawberry-flavored, indicated by the images of strawberries and the text on the packaging. The packaging is predominantly blue and has nutritional information and product details in white text. The front of the shelf has some dirt or grime visible. There are visible containers of mousse stacked in two rows inside cardboard trays. Some opening instructions are visible on the right side of the packaging.

**Key findings:**

- Scene: Image shows a close-up of a product price label attached to a refrigerated shelf or display unit. The label is for Major UK Retailer British 6 Pork Shoulder Steaks 900g, priced at £7.65 each, with a per kg price of £8.50. Above the label is part of a blue advertisement stating 'pork is reared by trusted farmers'. The refrigerated unit appears worn with visible rust and grime around the label and edges. Below the shelf is a tiled floor with a small rectangular object lying on the floor partially visible in the bottom right. The overall setting is likely a supermarket or grocery store meat section.

**Key findings:**

- Scene: The image is a composite of four screenshots showing stock price charts for a financial instrument priced at 285.60 GBX. Each chart corresponds to a different time frame: past 6 months, past year, past 5 years, and all time (max). The charts are line graphs with varying date ranges on the horizontal axis and price on the vertical axis. Each chart includes numerical data below it: Open 285.80, High 286.80, Low 283.20, Market cap 6.61B, P/E ratio 16.16, Dividend yield 4.58%, 52-week high 301.40, 52-week low 223.40, and Quarterly dividend amount 3.27. The date/time stamp displayed on each is 16 Jun, 12:04 BST. The charts show multiple price points marked; for example, on the 6-month chart, 274.40 GBX is marked on 13 May 2025; on the 1-year chart, 267.60 GBX on 5 Dec 2024. The percentage changes and upward green arrows indicate price increases over the specified periods. The background is white, and the text is clear and legible.

**Key findings:**

- Scene: The image shows a computer screen displaying a PDF document titled 'Fair Treatment Policy' opened in a PDF viewer, likely within the Firefox browser on a Linux operating system (evidenced by visible Ubuntu-like desktop icons). The page displayed is page 3 of 14. The visible text content on this page covers topics such as zero tolerance to discrimination, confidentiality, supportive process, appropriate channel, genuine complaints, whistleblowing, and external advice. The text is organized in a two-column format with some text in red and black fonts. The bottom footer contains the page number, document name, and a small logo/branding for 'Major UK Retailer'. The user interface shows a sidebar

---

with thumbnails of other pages of the PDF, and the window title is 'fairtreatment.pdf'. There is a date and time at the top center of the screen reading 'Jun 19 12:55'.

#### 1. Zero tolerance to discrimination bullying, harassment, sexual harassment, and victimisation

For more information please see our Guide to Discrimination, Bullying, Harassment, Sexual Harassment and victimisation available on Our Major UK Retailer. This guide provides more detail on what we mean by these types of behaviours and what is not acceptable behaviour.

We take allegations of discrimination, bullying, harassment, sexual harassment and victimisation extremely seriously. If you are affected by or are aware of any incidents of this nature, speak to your manager as soon as possible. We will do all we can to stop this behaviour. As we take any allegations seriously, if a manager reviews the allegation and feels that it is a form of discrimination, bullying, harassment, sexual harassment or victimisation, they will automatically use the formal fair treatment process.

#### 2. Confidentiality

So far as is possible we will only share information with people who are involved in resolving the complaint. If your complaint is about another colleague, we'll need to inform them so that we can help resolve the situation.

#### 3. Supportive process

We encourage colleagues to raise any issues that are concerning them. You won't get in trouble for doing this or for being a witness for someone else who has raised a complaint. We take it very seriously if anyone victimises a colleague for complaining or being a complaint witness and we may take disciplinary action against them.

#### 4. Appropriate channel

Whilst the fair treatment process is in place to support dealing with complaints, there are other channels that may be more appropriate for the issue you are raising to make sure it is dealt with in the right way.

Appeals against disciplinary decisions, dismissals and redundancies must be dealt with via the appeal process as explained in the Disciplinary and Appeal policy.

Collective complaints raised by Trade Union or colleague representatives should be resolved through consultation or an agreed process. If a number of colleagues raise a complaint together, we might suggest that they elect one person to pursue the complaint on their behalf.

#### 5. Genuine complaints

We expect that complaints are made in good faith, but if we find this is not the case, we will take it very seriously. An example of this is disingenuous complaints raised to divert attention from another issue e.g. a disciplinary investigation. Cases such as this could lead to disciplinary action.

#### 6. Whistleblowing

Colleagues can report wrongdoing in confidence using RightLine which is an independent and audited service. The free phone number (0800 085 2099) and website are available for all colleagues, contractors and suppliers who work for us in any capacity. For more information on types of situations that would be considered wrong doing, please refer to the Reporting Wrongdoing - Whistleblowing Policy.

#### 7. External advice

Any colleague who feels they are being bullied or harassed and would like confidential advice can call a free helpline for advice at any time. It's run by an external company called Validium and is independent of the company. Freephone 0800 027 7777 or 0330 123 9653

**Key findings:**

- Scene: The image shows a refrigerated display with packaged food items on shelves. Visible are two plastic packages with food products inside. One package on the top left contains several pieces of what

---

appear to be butchered or processed meat or seafood, possibly shrimp or a similar item in plastic trays. Another package on the right contains longer food items, potentially meat sticks or sausages coated with seasoning, partially covered by a blue label. The white label on the blue packaging has partial text visible. The refrigerated shelf has a white metal or plastic grate at the bottom front and the surface beneath the items has visible debris or food residue, including small pieces that look like shrimp shells. There is a black plastic or metal support structure holding the trays. The overall appearance suggests a refrigerated section of a store or market with some food debris and residue present.

Customer and Trading Managers / Trading Managers

- Reviews and completes recommendations from above audits and inspections

- 
- Completes the family group elements of the Risk App
  - Records, implements, and closes out corrective actions

#### Store Safety Inspection Report

The object is to highlight safety issues to management. The senior store safety rep will conduct this inspection four times a year, at the start of periods 1, 5, 8 and 11.

All areas of the store are inspected under the general headings of Environment, Machinery/Equipment and Work Systems/Colleagues. The inspection is completed by the Safety Representative/nominated colleague and on completion discussed with the Store Manager.

A summary of the inspection is discussed at the next Great Place to Work Meeting with any mitigating actions recorded.

#### Key findings:

- Scene: The image shows a close-up view of a refrigerated or frozen food display rack containing packaged cooked or smoked fish fillets. To the right side of the image, there is a white plastic or metal vent or grille which appears to be part of the refrigeration unit. On the surface between the food containers and the vent, there is a small shrimp or prawn lying loosely on a white, slightly dirty surface with some debris

---

and stains. The fish fillets are arranged vertically in transparent plastic containers. The overall scene indicates a food storage or display environment with some evidence of contamination or hygiene concern due to the loose shrimp and surface debris.

**Key findings:**

- Scene: The image shows the interior of a refrigerator drawer with metal rails and a plastic drawer front. Inside the drawer, there is a package of smoked ham slices partially visible. The drawer surface appears dirty with visible stains and debris such as hair and specks of dirt. The package is labeled with nutrition information and a use-by date. The use-by date on the package reads '31 MAR'.

**Key findings:**

- Scene: Close-up view of a white perforated metal or plastic panel with multiple small round holes arranged in a grid pattern. The panel shows some black dirt or grime along the top edge. There is a hinge on the right side of the panel attached to an adjacent reflective surface, likely a mirror. A corner of a boxed item with part of a yellow and white design is visible in the lower right corner. The upper part of the image is dominated by a light-colored, smooth surface reflecting the perforated panel and some of the dirt marks. No people are visible.

Icare update..

56.8% v 54.5% YTD

New comments...

Please clean up your environment. I felt the store looked jaded & the displays in the home & toy part were uninspiring. I am also always disappointed in the area outside the store. Dead trees in the car park, so much rubbish in the hedges surrounding the store. I thought this was a flagship store. It is in the middle of the national forest. I think Major UK Retailer can do better.

Can usually find everything I need but occasionally there will be stock shortages of specific products for which I have bonus nectar points or tailored nectar prices, often on last day of offer. This can be annoying but understandable.

### Key findings:

- Scene: Image shows the lower section of a refrigerated display shelf in a grocery or retail store. Visible products in the refrigerator include Activia yogurt packs and other dairy products such as Arla brand items. The shelf has a metal guard rail, and the front panel below it is stained with a reddish-brown substance that appears to be a spill or smear. The floor is a speckled tile with different shades of tan and white. There is a small white bottle lying on the refrigerated shelf surface. Price tags are affixed to the front of the shelf showing prices in British pounds, with tags reading £4 and £3.25 for what appears to be dairy products. No people are visible in the image. There are no visible timestamps or date markers.

**Key findings:**

- Scene: The image depicts a close-up view of a dirty white metal shelf inside what appears to be a refrigerated storage unit or freezer. On the left side of the shelf, there are several vacuum-sealed packages of red meat stacked on top of each other. The shelf itself shows significant dirt or mold spots and stains, and there is a piece of torn, brownish-faded material or residue stuck near the front edge. The right side of the image shows a white handle attached to the refrigeration unit door, with some visible rust or brownish staining around the hinge area. Below the shelf and behind the door, more vacuum-sealed packages of red meat can be seen. The floor is white tiled with some dirt or stains visible.
- Text detected: British Style flat beef mince
